

NICOLA OFFSHORE

PROCAT 1200 OBC Nautical Explorer

Speed & precision

Nautical Explorer is a purpose-built high-speed survey vessel, featuring an advanced hydroacoustic fit-out to deliver the highest quality data. With a top speed of 44 knots and excellent seakeeping abilities, Nautical Surveyor gets the Nicola Offshore team to the survey site quickly, and in safety.

- High-speed transit to survey sites in any weather, saving time & money
- Modern, reliable, and fuel-efficient dual-engine configuration
- Advanced hydrographic systems with scope for client-specific tech
- Customised frame for safer UXO and object searching
