

## Fast & Flexible Surveying

**The Nautical Surveyor is Nicola Offshore's flagship vessel. At 14 metres in length and with a width of 5.2 metres, it is our largest dedicated survey vessel and offers the space and stability for an aft-deck A-Frame, used for deploying towed survey systems.**

- 900hp delivers fast transit to survey sites, saving time & money
- Catamaran hull enables survey stability and comfort onboard
- Advanced hydrographics installed with scope for client specific tech
- Integral A-Frame for safe towed survey and ROV/AUV launching

## Fast facts

### Technical specs

Hull: Polyester/GRP  
Tube: Lightweight Fender  
Length: 14 mtr  
Width: 5.2 mtr  
Draft: 1.5 mtr  
Fuel type: Diesel  
Capacity: 1200 Ltr  
Power: 2x 450 hp  
Speed: 27 knots  
Max pers.: 8 Pers.  
Range: 700 NMI

### Standard equipment

- Cabin with navigation lights
- 4 x batteries incl. emergency start system

### Description

Designation: PowerGlide 46  
Type: CCTV & Survey

### Survey equipment:

IHO S-44 compliant, integrated Hydrographic Survey System with R2sonic 2024 sonar head (other options available on request)

### Navigation:

GPS chartplotter, Radar, VHF, depthsounder - all with dual installations for redundancy.  
Simrad Auto-Pilot

### Rescue equipment:

EPIRB, SART, liferaft, lifevests with Epirb MOB1 AIS, rescue-sling, Man Overboard Recovery System, Rescue buoys, rescue zone with rescue-net, Crewfinder

### Cabin:

Suspension seats for 8+ helmsman and navigator, toilet/shower, kitchen, heating

### Deckspace:

14 square metre aft-dack, with hydraulic A-frame. Toilet on aft-deck. Deckspace at front 12 square metres with moonpool
